Inpatient Fall Risk Prediction And its Cross-site Validation**2022**

- Researched machine learning approaches for predicting inpatient fall risk, analyzing clinical and behavioral data with cross-site validation methods. Published findings highlighting key risk factors, predictive techniques, and challenges in implementing hospital-wide fall prevention systems.

Web application for a clothes store**2021**

- Designed an online storefront to promote clothing products and enhance customer reach, integrating an email feature to capture customer details and support basic digital marketing campaigns. The platform was built with a simple, user-friendly design to attract visitors, improve product visibility, and drive customer engagement.

Blind man walking stick using ultrasonic sensor**2019**

Designation/Department

- Developed an Arduino-based walking stick with ultrasonic sensor and vibrator for obstacle detection, enhancing mobility and safety of visually impaired users. Gained practical experience in Arduino coding, sensor integration, and embedded systems.

CAMPUS AND COMMUNITY LEADERSHIP

- CCM of Admission cell
- CCM of R Space
- CCM of Zero Gravity

CERTIFICATIONS AND ACHIEVEMENTS

- Introduction to Python – conducted by Karunya Hacks
- Introduction to Data Science by IBM
- Basic Data Descriptors, Statistical Distributions, and Application to Business Decisions
- Business English Certificate Preliminary from Cambridge University

SKILLS AND INTERESTS

Hard Skills:

- Programming (Python, SAP(ABAP), HTML/CSS basics)
- SQL
- Excel
- Power BI
- Multivariate Analysis

Soft Skills:

- Initiative & Self-Motivation
- Adaptability & Learning Agility
- Time Management & Multitasking

Interests:

- Sketching
- Photography
